### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Daniel Christenburg on December 6, 2004.

The application has been amended as follows: Claims 8 and 9 have been canceled.

### *Allowable Subject Matter*

2. Claims 1-6 are allowed.

3. The following is an examiner's statement of reasons for allowance: no prior art has been found to teach, disclose, or fairly suggest a dicing tape comprising an adhesive layer composed mainly of a soluble polyimide and an epoxy-modified polysiloxanes; in combination with all of the other limitations of claim 1. The examiner is relying on Applicants' arguments on page 5, paragraphs 3-4, of the Remarks, and the Affidavit as the basis for allowance.

Furthermore, the prior art of Massingill et al. (US Pat. 6,271,107) is cited of interest. Massingill et al. teaches a laminate 20 for dicing (see col. 3, ln. 22-28), comprising a semiconductor substrate 10, a polymeric layer 14, and a release layer 16 (see Fig. 2; col. 3, ln. 16-21); wherein the polymeric layer can be formed on a release layer (see col. 4, ln. 63-65). Massingill et al. further teaches the polymeric layer being an adhesive comprising a mixture of polyimides, epoxy functional polymers, polysiloxanes (see col. 3, ln. 53-64). However,

Art Unit: 1711

Massingill et al. does not teach the adhesive layer to have a mixture of a polyimide and an epoxy-modified polysiloxanes.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
